

ZKBioSecurity – Device Monitoring

It monitors all devices within the current user's level. Here is where you will view a list of operation information of devices: Device Name, Serial No., Area, Operation Status, Current status, Commands List, and Related Operation.

Following are steps to take when to do Device Monitoring.

Device > Device > Device Monitoring

You can see the command list count. You can clear the command list count or you can view the command list count.

Device Name	Serial Number	Area	Operation Status	Current Status	Commands List	Recently Abnormal State	Operations
10.0.10.80	CKJZ201560071	Area Name	Get real-time event	Normal	0	Disconnected	Clear Command View Command
