

## ZKBiosecurity - Restricting Access For Personnel After A Set Time

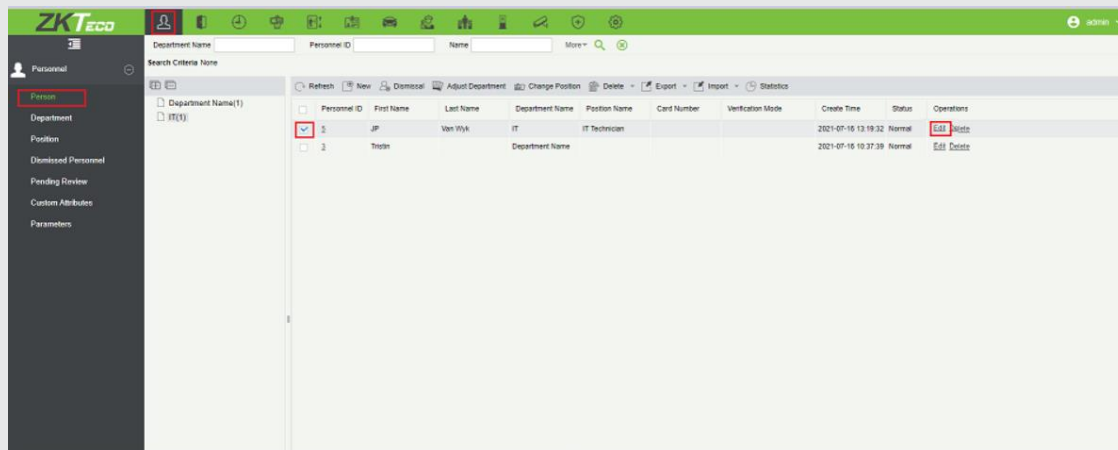

Set Temporary access level. Doors can be set to open only within certain periods. If it is not checked, the time to open the door is always active.

Following are steps to take when you restricted access to personnel.

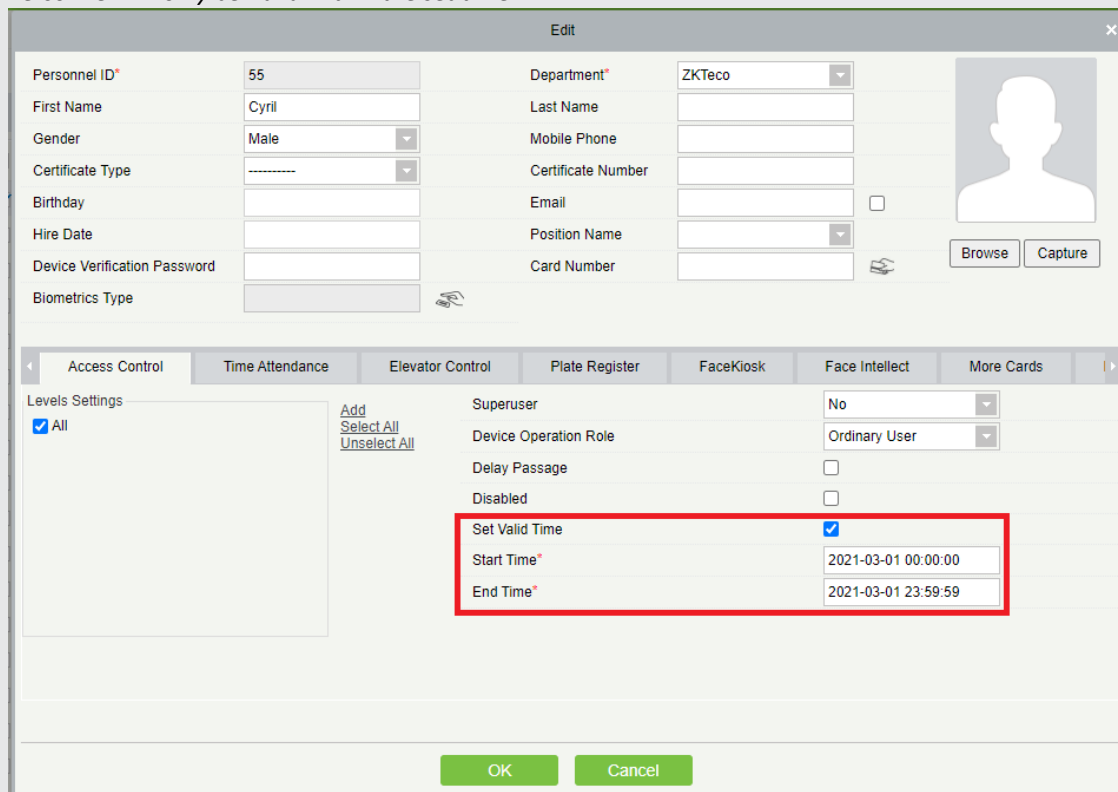

*This will not work if you have - SpeedFace Android Version*

Personnel > Personnel

Select you person(in the tick box) that you want to restrict and click on Edit

On the Edit window, please select the Set Valid Time tick box. Fill in the to and from date and time. Personnel will only be Valid within the set time.

Select Ok.
